SYSTEMS OF TEACHER TRAINING AT EDUC UNIVERSITIES

Digital lecture series

From an international perspective, there are significant differences in the implementation of teacher education. This series of lectures makes it possible to get to know the different systems and thus also to learn from one another. In terms of content, the lectures not only present the respective traditions of the systems of teacher training, but also current developments and challenges. Both lecturers and students are cordially invited!

The seven sessions always take place between 4:15 p.m. and 5:45 p.m. CET.
